

MoReVoX ELEKTROMORPH

Developed by Sabino Cannone

ELEKTROMORPH 2 by MoReVoX is a powerful tool which will take your drum tracks on an unexpected and creative sound adventure. Divided into Massive Path Sounds and Creative Path Sounds, MoReVoX ELEKTROMORPH 2 has been recorded with unique top quality signal paths to create individual sound coloring, then hyper-edited in both analog and digital domains. ELEKTROMORPH 2 gives you several ways to create amazing drums tracks : deep and punchy digital sounds, warm and dirty-valve analog sounds, dry impact drums, explosive roomy wide hits, massive pure natural sounds, classic MoReVoX creative sounds, and more, for a total of 820 samples and 118 Instruments (24bit). MoReVoX ELEKTROMORPH 2 performs : 30 Kicks, 40 Snares, 6 Toms Racks, 6 Sidesticks and 36 Cymbals.
