

V. 1.0

MoReVoX - MSP

Modulated – Spring – Plate

Spring verbs with fat and rich tails, Modulated Plates, Dense Spring with early plate sound ... these are only few “dream” verb sounds that are now truth with MSP.

MSP has been developed mixing several top quality modern and vintage hardware though the unique MoReVoX IRs design based on the M/S harmonics distortion.

The 200 MSP IRs are divided into Modulated and Spring-Plate; the Modulated category contains a rich collection of dense Plates and Rooms modulated with extensive use of Leslies, the Spring-Plate category instead contains outstanding dense Springs made unique with Plate sounds components.

How MSP sounds?

MSP, like all the MoReVoX IRs, has an unique sound not directly comparable to any other hardware or plug-in on the market: MSP has an original sound, because it synthesize complex fx chains.

Vintage style evocative ambiences perfect for guitars, unusual wide and modulated plate/spring verbs able to transform poor virtual instrument into record ready sounds, perfect ambiences able to enhance and to define the instrument position in the mix the goal for orchestral sounds and more ..

MSP means new and unique dimensions for your sounds, start now!

INSTALLATION

Run the installer, insert the serial number then choose your IRs folder.

Typical IRs folder locations :

OSX

TLSpace :

System HD/Library/Application Support/Trillium Lane/TL Space

Space Designer:

System HD/Library/Application Support/Logic/Plug-In Settings/Space Designer

WIN

TLSpace :

System HD/Program Files/Common Files/Trillium Lane/TL Space

Note for OSX users

During the installation will be installed a folder called " 00 MoReVoX – MSP [SD] " , it contains the Space Designer programs, if you're not a Space Designer user this folder can be deleted .

USE NOTES

The MSP IRs have generally medium/long tails, we suggest to start with reduced tails length at 75/85%

MSP - IRs LIST

MODULATED		SPRING-PLATE	
Absolute	LongFreez	AirSpringPlate	MachinePlace
Aimmer	LongFreez2	AmbiPlate	MagicPlate
AirMod	LongSlide	BigPlate	MagneticPlate
