BLACK STAR RECORDING STUDIO

REmatrix Expansion Library

 **REmatrix**

The Blackstar Recording Studio is a studio equipped with lots of Vintage gear and located in Milan. Not only the main recording room but all the studio rooms are been carefully sampled with several microphone setup in order to capture all the nuances and sound perspectives (40 IRs). The REmatrix engine allows you to use these IRs in their purest form or experiment layering multiple rooms achieving unusual and unique immersive rooms. The Library is provided with two banks (Single and Multilayer) for a total of 50 Presets.

SICILIAN REVERB

5 Liters

This is the classic Italian Olive Oil tank. With a proper sound excitement it produces a very interesting ringing reverb. Try it out on the Snare!
